

Calderdale College is committed to placing women and girls at the centre of football development across Calderdale. The development of a new 3G pitch is central to this commitment, providing a high-quality, accessible facility that will increase participation, remove barriers, and create sustainable opportunities within the women's and girls' game.

Our Vision

To be the leading centre for girls' football provision and development in Calderdale.

Our Priorities

- **Internal (16–19 Provision):**
To deliver an inclusive and aspirational football academy programme, supported by high-quality facilities, enabling female learners to train, compete, and represent the College.
- **Community Engagement:**
To expand opportunities for girls of all ages through strong links with schools, grassroots clubs, and local communities, using the 3G pitch to increase access and participation.
- **Workforce Development:**
To create opportunities for women and girls beyond playing, including coaching, officiating, and leadership roles, supporting personal development and future employment pathways.
- **Partnerships:**
To work collaboratively with clubs, organisations, and stakeholders to strengthen provision, maximise facility use, and grow the women's and girls' game locally.

Our Objectives

- To increase and sustain participation opportunities for women and girls of all ages in football and futsal through access to the 3G facility.
- To work strategically with schools and partners to enhance and expand inclusive provision across Calderdale.
- To deliver a high-quality, inclusive, and aspirational football academy programme for female players.
- To develop clear pathways into coaching, officiating, and leadership roles for women and girls.

The 3G pitch will play a vital role in achieving these aims by providing a safe, reliable, and inclusive environment for year-round activity. It will enable us to address existing inequalities in access to facilities, support growing demand within the women's and girls' game, and create a clear pathway from participation through to performance and employment.

Through this development, we are committed to widening participation, strengthening inclusion, and ensuring that every woman and girl has the opportunity to engage, develop, and succeed in football and futsal.
